

Instructions for Windows Xp, Vista, 7 or 8:

Upgrading your Windows Rx Writer Lite to Rx and Orders Writer Pro 4.9:

Before upgrading to Version 4.9, you must already be using the Rx Writer Lite of our program and it must be properly installed in your Windows. If not, go to www.easyclinicsoftware.com and download it there for free and install it properly.

If you are already using Rx Writer Lite (Dr. Eyes) and you want to upgrade to Rx and Orders Writer Pro Version 4.9, do the following:

- a. Open the Zip file EasyClinicSoftware4.9 (extract it)
- b. Open **RxOrdersWriter4.9**,
- c. Open the green installer, **RxOrdersWriter4.9_upgrade**,
- d. Click **No Questions Ask installation** then proceed with installation.
- e. Once done, you may re-open Dr.Eyes icon at the desktop and it is expected that you are now upgraded to Version 4.9.
- f. Of course you need to read the PDF Manual on how to use it.
- g. . The said manual is part of the 4.9 zip file or you may download it at the Knowledgebase section of www.easyclinicsoftware.com.

Manual Upgrade:

(this is if those of you who transferred the location of RxWriter5 folder to some other location rather than Drive C. If you did not, just disregard):

- a. Open the Zip file **EasyClinicSoftware4.9**
- b. Open the RxOrdersWriter5, open **RxWriter_Manual_Upgrade4.9**.
- c. Copy all the files inside it.
- d. Go to where you transferred RxWriter5 folder and open it and paste it there, answer yes to overwrite. Don't worry this will not delete your records
- e. Then you may re-open Dr.Eyes icon and it is expected that you are now upgraded to Version 4.9.
- f. Then read the PDF Manual on how to use it.
